

CHAPTER 11
FREEWAY RELIABILITY ANALYSIS

CONTENTS

1. INTRODUCTION 11-1

- Overview 11-1
- Chapter Organization 11-1
- Related HCM Content 11-2

2. CONCEPTS 11-3

- Overview 11-3
- Freeway Travel Time and Reliability 11-4
- Scenario Generation 11-8
- Active Traffic and Demand Management 11-13

3. METHODOLOGY 11-15

- Scope of the Methodology 11-15
- Required Data and Sources 11-20
- Methodology Overview 11-23
- Computational Steps 11-25

4. EXTENSIONS TO THE METHODOLOGY 11-31

- Active Traffic and Demand Management 11-31

5. APPLICATIONS 11-39

- Example Problems 11-39
- Example Results 11-39
- Default Values 11-42
- Planning, Preliminary Engineering, and Design Analysis 11-44
- Use of Alternative Tools 11-46

6. REFERENCES 11-48

LIST OF EXHIBITS

Exhibit 11-1 Schematic Representation of Freeway Reliability Analysis
Time-Space Domain 11-5

Exhibit 11-2 Illustrative Probability Density and Cumulative Distribution
Functions of Travel Time on a Freeway Facility 11-7

Exhibit 11-3 Derivation of Time-Based Reliability Performance Measures
from the Travel Time Distribution..... 11-8

Exhibit 11-4 Schematic of the Freeway Scenario Generation Process and
Influential Factors 11-9

Exhibit 11-5 Scenario Illustrating Weather and Incident Events 11-13

Exhibit 11-6 Process Flow for ATDM Implementation for Freeway
Facilities..... 11-14

Exhibit 11-7 Freeway Reliability Methodology Framework 11-15

Exhibit 11-8 Overview of Reliability Parameters 11-16

Exhibit 11-9 Recommended Number of Replications for Scenario
Generation..... 11-18

Exhibit 11-10 Required Input Data, Potential Data Sources, and Default
Values for Freeway Reliability Analysis..... 11-21

Exhibit 11-11 Freeway Reliability Methodology Framework 11-24

Exhibit 11-12 Freeway ATDM Strategy Evaluation Framework 11-35

Exhibit 11-13 List of Example Problems..... 11-39

Exhibit 11-14 Illustrative Effects of Different Nonrecurring Sources of
Congestion on the TTI Distribution..... 11-40

Exhibit 11-15 Illustrative Effects of Inclement Weather Events on the TTI
Distribution..... 11-40

Exhibit 11-16 Illustrative Effects of Incident Rates on the TTI Distribution..... 11-41

Exhibit 11-17 Effect of Activating Hard Shoulder Running ATDM
Strategy 11-41

Exhibit 11-18 Default Urban Freeway Demand Ratios (ADT/Mondays in
January) 11-42

Exhibit 11-19 Default Rural Freeway Demand Ratios (ADT/Mondays in
January) 11-42

Exhibit 11-20 Default CAFs by Weather Condition..... 11-43

Exhibit 11-21 Default SAFs by Weather Condition 11-43

Exhibit 11-22 Default Freeway Incident Severity Distribution and
Duration Parameters (min)..... 11-44

Exhibit 11-23 CAFs by Incident Type and Number of Directional Lanes
on the Facility 11-44

Exhibit 11-24 Input Data Needs for HCM Planning Reliability Analysis of
Freeways..... 11-45
