

**CHAPTER 21**  
**ALL-WAY STOP-CONTROLLED INTERSECTIONS**

**CONTENTS**

**1. INTRODUCTION..... 21-1**  
    Chapter Organization..... 21-1  
    Related HCM Content..... 21-1

**2. CONCEPTS ..... 21-2**  
    Phase Patterns ..... 21-2  
    Departure Headway ..... 21-4  
    Capacity Concepts ..... 21-5  
    Level-of-Service Criteria ..... 21-9

**3. MOTORIZED VEHICLE CORE METHODOLOGY ..... 21-10**  
    Scope of the Methodology ..... 21-10  
    Required Input Data and Sources..... 21-10  
    Computational Steps ..... 21-11

**4. EXTENSION TO THE MOTORIZED VEHICLE METHODOLOGY ..... 21-20**  
    Introduction..... 21-20  
    Replacement Steps for Three-Lane AWSC Intersection Approaches ..... 21-20

**5. PEDESTRIAN MODE ..... 21-22**  
    Vehicular Volumes ..... 21-22  
    Number of Approach Lanes..... 21-23  
    Proportion of Turning Traffic..... 21-23  
    Pedestrian Volumes..... 21-23

**6. BICYCLE MODE ..... 21-24**

**7. APPLICATIONS..... 21-25**  
    Types of Analysis..... 21-25  
    Example Problems ..... 21-25  
    Example Results ..... 21-25

**8. REFERENCES..... 21-27**

## LIST OF EXHIBITS

Exhibit 21-1 Analysis Cases for AWSC Intersections .....	21-2
Exhibit 21-2 Operation Patterns at AWSC Intersections.....	21-4
Exhibit 21-3 AWSC Configuration: Formulation 1.....	21-5
Exhibit 21-4 AWSC Configuration: Formulation 2.....	21-6
Exhibit 21-5 Probability of Degree-of-Conflict Case.....	21-7
Exhibit 21-6 Degree-of-Conflict Cases for Two-Lane Approaches.....	21-8
Exhibit 21-7 Degree-of-Conflict Cases for Three-Lane Approaches.....	21-8
Exhibit 21-8 LOS Criteria: Motorized Vehicle Mode.....	21-9
Exhibit 21-9 Required Input Data, Potential Data Sources, and Default Values for AWSC Motor Vehicle Analysis .....	21-11
Exhibit 21-10 AWSC Intersection Methodology .....	21-12
Exhibit 21-11 Geometry Groups.....	21-13
Exhibit 21-12 Saturation Headway Adjustments by Geometry Group .....	21-13
Exhibit 21-13 Probability of $a_i$ (Two-Lane Approaches).....	21-14
Exhibit 21-14 Probability of Degree-of-Conflict Case: Multilane AWSC Intersections (Two-Lane Approaches, by Lane) .....	21-15
Exhibit 21-15 Saturation Headway Values by Case and Geometry Group.....	21-17
Exhibit 21-16 Probability of $a_i$ (Three-Lane Approaches) .....	21-20
